Daily Center Sports IS BACK!!!!

By Timothy Hollister

Welcome to the first Daily Center sports of the year, and oh boy, is there a lot to talk about. Let's start off with things that happened before the start of summer.

Our beloved Tom Brady signed with the Tampa Bay Buccaneers and had a great season beating the Chiefs 31-9 in Super Bowl 55, becoming the first team to play and win the Super Bowl in their home stadium. Tom Brady got his 7th ring and now has more Super Bowl wins than any player or team which started a debate over whether Tom Brady is, not just the GOAT but also the greatest franchise of all time after taking a team from 7-9 that had a QB throw 30 interceptions to Super Bowl champs.

Also, in 2020 another former Boston player Mookie Betts was traded to the Dodgers and won the World Series against the Tampa Bay Rays 4 games to 2. Now let's get into more recent stuff: the Celtics were kicked out of the playoffs by the Brooklyn Nets but were able to win 1 game in that series where Tatum dropped 50 points. After the game, Danny Ainge resigned, and Brad Stevens was promoted to his spot, which meant we were on the hunt for a new head coach, and then we found Ime Udoka, assistant coach for the team that kicked us out.

The Lakers, Wizards, Grizzlies, Mavericks, Knicks, and Heat also lost in the first round; Lakers losing gave LeBron James his first career first round exit. In the second round, the 5 seed Atlanta Hawks upset the 1 seed Philadelphia 76ers winning in game 7 after a very poor performance from Ben Simmions and an amazing Performance from Trae "Ice Trae" Young dropping 21 points and 10 assists. The 4 seed Los Angeles Clippers also upset the 1 seed Utah Jazz in a game 7, the 2 seed Phoenix Suns Swept (which means they won 4 games without letting the other team win 1) the 3 seed Denver Nuggets, and the 3 seed Milwaukee Bucks beat the 2 seed Brooklyn Nets in 7 games.

Our final part of catching up is the eastern and western conference finals. The Milwaukee Bucks beat the Atlanta Hawks in 6 games, and the 2 seed Phoenix Suns beat the 4 seed Los Angeles Clippers in 6 games. Now that we have our NBA Finals set based on hours of looking at stats, my prediction is that the Phoenix Suns win the NBA Finals in 5 games.

to turnover (turnover means when you're on offense you either step out of bounds or do something to give the other team possession) the ball 13 times. Then in game 2, they made 8 threes alone in the first quarter. Entering halftime, the suns were up 11. In the second half Devin Booker and Chris Paul turned on the heat, Booker finishing with 31 points 5 rebounds and 6 assist, Chris Paul had 23 points 8 assist and was 10 for 20 or 50% on shooting, that lead to a Phoenix Suns victory putting them up 2-0 in the series.

Keeping with the NBA, Ben Simmons is on the trade block, and the 76ers are listening to all trades, so let's talk about what would be a good trade. In my opinion, the best trade for him is to the Minnesota Timberwolves, who have reportedly had high interest; I believe they trade D'Angelo Russell and a 1st round draft pick. Let's first discuss the pros for the 76ers. You get a 1st round pick to help you build for the future, and D'Angelo Russell, a point guard who is good at shooting and can help open the court for Embiid. For the Timberwolves you get a 6 foot 10 inches point guard that will help distract the defense and help Karl Anthony-Town and your young star Anthony Edwards get more space and open shots, and he would be a great addition to that struggling defense.

Moving on from the NBA, the Olympics are just around the corner, and our beloved Jayson Tatum will be joining Kevin Durant, Devin Booker, Khris Middleton, and more NBA stars representing team USA for basketball. Coming up on July 10th we have UFC 264, which headlines with the trilogy Dustin Poirier vs. Connor McGregor that should be very fun.

Finally, we have our Player of the Day or POTD (Drum roll please) today is... CHRIS PAUL, in game 6, when the lead was cut to just 7 points, he went on an 8-0 run (a run is when you score points in every possession or without the other team scoring) by himself and scored 14 of the last 16 points by the suns with a final stat line of 41 points 8 assist going 7-8 or 87.5% from 3 and 16-24 or 66.7% from the field, making his first career final appearance. Then getting to the finals and in game 1 dropping 32 points and 9 assist, then in game 2 dropping 23 points and 8 assist.

Well, that's all for today. Expect more articles as the days go, and if you have any suggestions for POTD or stories you want me to talk about come find me if you can't find me ask Kippy, I hope you enjoyed.

Noontime Show Review

by Lilah Simpson

Wednesday's noontime show (it was actually at noontime this time) was hosted by the blue cohort with counselors Marcy, Sylvie, Clay and their CIT Charlotte. The lemonade-stand themed show started with a, CIT PSA that involved all the CITs about how people should pay attention during announcements and be quiet when someone else is talking. Then Tony's 5th period modern dance class danced to an instrumental song. After that, some slideshows, pictures, and videos were shown. First, there was a slideshow about Marcy's Imagination Vacation class who had to do two challenges using the same materials. The first one was a "tallest tower" challenge and the second one was a "face or creature" challenge. Then Marcy's Drawing and Doodling class showed a slideshow as well. Then Video Comedy showed two videos where the challenge was to lip-synch. The first video went to "I Like to Move it" and the second one went to "Footloose." Then Bella's photography classes shared their photos to the song "Levitating." Next, Clay and Raffi's merged improv class shared the game One Word Story with the three suggestions of "Harry Styles" "Bears" and "Earring." Then Marcy, Sylvie, and Clay did an impromptu interview with Nate Seitelman that involved everyone's favorite game, "GUESS NATE'S MIDDLE NAME!" Upon being told that the middle name started with G and that it had six letters, the audience came up with the following responses: "Gerald" "George" and "Google." There were also cries of "Gary" and "Gabriel" until Nate Seitelman revealed that his middle name is actually "Gerone." The show finished up with a performance of "The Duck Song" by members of the blue cohort and an announcement from Liza about tie-dying.

Why Dogs are Better Than Cats

By: Penny Judd

Personally I don't think I even need to write this but for all those cat people after you read this you'll know that you're wrong.

First cats are not as loyal as dogs, cats don't follow you around all day and sleep on you. Kittens also are a lot less cute than puppies, puppies are active, playful and fun. Kittens are slow and boring. Dogs stay in your house or yard, cats go around the whole town and can get lost easily. Dogs are your loyal companions for their whole life, Cats are your masters who run away from your family and friends while dogs run towards them. Cats scratch you and don't care, if a dog scratches you they will easily apologize. So to all the cat people in the world I hope that this article has shown you how amazing dogs are and even if it didn't dogs are still the most popular pet in the world so it is clear that the rest of the world agrees with me.

Magical Animal Advice Column Number Four

Interviewers: Roselia Sparklenose, unicorn. Sizzles Os'more, dragon NON - Magical animal seeking advice: Ned smith, human

Greetings, viewers! I have a bit of a disappointing piece of information that me and Sizzles must share with you. You see, every day magical animals who need advice write their names and why they need advice on a slip of paper, and then they put the slips of paper in a jar near the M.A.A.C (not the basketball tournament, the abbreviation for Magical Animal Advice Column) building. Then Sizzles and I draw out a paper and invite the creature on the paper we drew out to come to our show. The bad news is that a HUMAN named NED has submitted an advice paper, and everyone knows that humans ARE NOT MAGICAL! But guess what? No one else submitted a paper! So my managers told me that we had to go with NED.

Ned the real estate agent.

Ned the HUMAN real estate agent. If it had been one of those Cyclops real estate agents who live down south, the show would be fine. If it had been one of those Pegasus real estate agents, we'd be fine. But of course it had to be-

Rosie! Ned the human is being shown in! Now!

Wha- Hello! Rosie and Sizzles, right? It's so nice to meet you guys!

Why is your human hand positioned in front of yourself like that?

For a handshake?

What is a HAND-SHAKE? Does it involve shaking hands like maracas? Are there colored beads inside human hands like they are in maracas?

Ha-ha-ha! You guys crack me up!

You are cracking? Do you need to go to the hospital?

Ha! Ha! Oh, you guys are killing me!

I'm sorry! I will attend your funeral! I hope I don't go to jail! It would ruin my reputation! Oh no! He fell down! Sizzles, do you think I killed him?

I think he fell down from laughing. NED! NED! ARE YOU THERE?

Yes, yes! I'm here! Hey, you guys are great! But I gotta go. I have to pick up my kids from school. If either of you need a condominium apartment with two beds, one bath, come see me!

Sizzles, did we do something wrong? Or is that just natural human speech?

I'm not sure.

(SILENCE)

Uh, the show is over! Tune in next time when we talk to a monstrous mother with too many kids!

The Ocean on Fire

By Penny

On Friday, July 2, 2021, there was a huge fire on the ocean in the Gulf of Mexico. The fire was caused by an oil leak under the water. The fire burned for more than 5 hours before the fire was completely put out by boats. This made a lot of people wonder if underwater pipelines were dangerous and what the risks of underwater pipelines are. Even though the fire was put out, this could still happen again.

A Love Triangle on a Midsummer's Night

By the Jr. Musical Cast Members: Eve, Annalisa, Lyra, Scarlett, Cora, Maxine, Kiana

This is a behind-the-scenes, exclusive interview with Theseus, Helena, Demetrius, and Lysander.

Question: So, King Theseus, what do you think of the current situation?

Theseus: Honestly, I do not really understand any of this. There is some weird love stuff going on.

Question: Helena, what do you think of what happened just now?

Helena: It was very confusing, and now, Lysander likes me, and now Hermia is gonna kill me.

Question: Hermia, are you sure you want to kill Helena?

Hermia: Of course I am! She stole Lysander from me. Which is homewrecking basically, and Lysander, by the way, I am really upset with you. How could you even think about doing this?

You asked me to run away with you, and then this is what you do?!

Hmmmmmm. Yes. And Lysander, I can't believe you.

Question: Well... Demetrius, what do you think? You're sitting between them!

Demetrius: It's been a weird night. I just love Helena, why doesn't anyone understand?

Hermia: I thought you were in love with me! Hmm!

Question: Lysander, what do you think about all this craziness?

Lysander: Well, I just love Helena; I don't know why. I just feel like I need to marry her. She's my true love. I just don't like Hermia anymore. She is so annoying (I never actually did, and I never will).

Question: Which one of you do you think was hurt the most from all of this?

Everyone: Definitely Hermia!

Question: Are you sure?

Helena: I think it's me. I've been mocked!

Climate Change: What is it, and how can we stop it?

By Nora Thompson

Climate change is when CO2 or carbon dioxide enters the atmosphere and traps the heat near the earth, which can make snowy places like Antarctica melt. Also, big pieces of the Arctic melt off with animals like polar bears on them!!! Anyway, onto the stuff about stopping it, so part of knowing how to stop it is knowing what is causing it, so what's causing it is us burning fossil fuels and using cars!!! Seriously we can just walk or bike, people!!!

Sorry, I may have overreacted, but now I have to get back on topic, so anyway yeah, um oh yeah, I was just going to show you how to stop it, so really, one way to stop it is just to stop using a car you can use trains, bikes or just walk it also is good for you anyway. I think you get my point, so bye!!!

How Did the Train Get on Fire?

By Rachel Lemoine

There were a bunch of people going on the train. They were going to New York. Everything was good, but it was getting warmer. So two hours passed, and it was getting warmer and warmer. Everyone ignored it but then it started to get too hot. There was one man looking around to find out why it was getting hot. He saw a lot of fire, and he did not think it was harmful. So he went back to his seat, so a bunch of people fell asleep. They woke up, and the train was fully on fire. At first, there was no fire on anyone. But then, there was a fire on someone's shirt. The man figured out that the train was going too fast on the rails. The train stopped immediately. Everyone got out of the train. And everyone was okay.

NATIONAL SUGAR COOKIE DAY

By Penny Judd

Today is National Sugar Cookie day! I remember in 2019 when there was a National Sugar Cookie Noontime Show, I forget the details but I remember the sugar cookies. For lunch that day I had sugar cookies! So everyone, I hope you celebrate this amazing day by eating a sugar cookie!
